

PLAN

VCBPS Plan for Continuous Improvement

Review and Analysis of Results

School: Floyd E. Kellam High
School

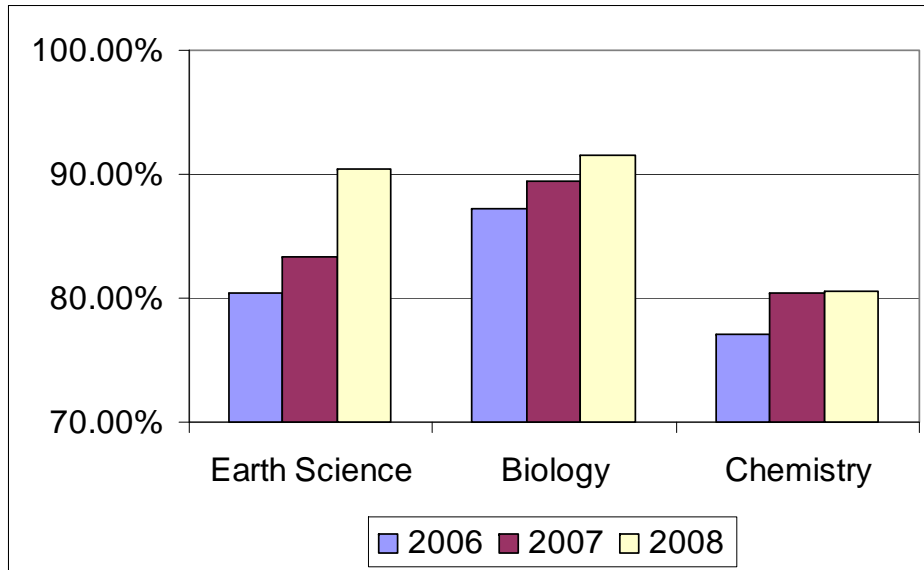

DATE: 10/31/08

Review

(Objective data, qualitative indicators, trends and comparisons)

Analysis

(Identify gaps and list priorities)

Kellam's Earth Science SOL pass rates are first in the division at 90.41 percent and Biology pass rates rank third in the division at 91.52 percent. However, chemistry pass rates rank 10th in the division and large achievement gaps are present with the Earth Science pass rates.

Priority: Increase chemistry pass rate to meet or exceed the division average of 88.65%.

Priority: Explore ways to close the achievement gap for Students with disabilities on the Earth Science SOL.
