VBCPS Plan for Continuous Improvement

Review and Analysis of Results

School: Floyd E. Kellam High School

DATE: 10/31/08

2008 SOL Pass Rates increased in 10 of 12 subject area tests from 2007. Some of the initiatives that contributed to this success include: restructuring Kellam’s CIP to the High School That Work 10 best practices; creation of subject specific study blocks for at-risk students; teachers being relieved of duties to tutor students during study blocks and lunches; implementation of a school-wide Wednesday after school tutoring sessions; and implementation of the SOL Boot Camp.
