

Do you need help preparing for the SAT?

Students at Kellam have two wonderful, free resources available this year.

1. Boston Test Prep Online SAT Program:

This service, which usually costs \$249, will allow unlimited 12 month access to 100 students. The program offers 24/7 access, at school, home, anywhere that students have access to the internet. The program has practice tests, diagnostic tools, essay and grammar usage lessons, and exam tips.

2. The Official SAT Online Course:

This program is provided by College Board. It features 6 practice tests, automatic essay scoring, 18 interactive lessons and quizzes. The SAT Online Course is also available 24/7 through internet access to 100 students.

If you are interested in either program, please see Mrs. McCallister in Room 300 or Mrs. Hansen in Guidance.
